

August 18, 2023

To S.-T. Yau High School Science Award Organizing Committee,

My name is Qianqian Song. I am currently a tenure-track assistant professor at Wake Forest University School of Medicine. I will be joining the University of Florida on Oct 1, 2023. My lab website is <https://qsong-github.github.io/SongLab/> and my official website is <https://school.wakehealth.edu/faculty/s/qianqian-song>.

During the summer term of 2023, I supervised the research endeavors of Zijia Tang, who served as an intern under my guidance. Throughout the duration of this internship, Zijia Tang has completed the work scPerb, which is a bioinformatics tool for single-cell perturbation prediction. I am happy to acknowledge my role as Zijia Tang's mentor in preparation for the S.-T. Yau High School Science Award competition.

Sincerely,

Qianqian Song, Ph.D.
